

# MANSIL<sup>®</sup> ZX (LPH)

Sodium aluminum silicate

## Description

Fine white powder form TiO<sub>2</sub> Extender with higher hiding power

Appearance	High whiteness Fine powder	
Test	Unit	Typical Range
Oil absorption	g/ 100g	120 -140
pH (5% water suspension)	---	6-8
Moisture content	%	6.0 Max
Dispersability	---	excellent
Tapped bulk density	g/l	250 + 50
Residue on 325 # (Wet)	%	0.1
Avg. Particle size (d50)	µm	9.0 max
SiO <sub>2</sub>	%	>82

**Packing:** 25 kg in HDPE Bags with inside LDPE liner or Multi-layer paper bags.

**Material Safety Data:** The product as such is neither inflammable, non-toxic. Over all it is not hazardous. Repeated exposure May irritate Skin, eyes and respiratory system.
